PACKAGING
BAGCRAFT™
A NOVOLEX BRAND

Bagcraft® Packaging, a Novolex™ brand, offers the industry's broadest range of paper based specialty value-added food packaging products including specialty bags, sandwich wraps, and other specialty sheet and roll products.

Bagcraft® is also a leader in sustainability innovation with its EcoCraft® brand of flexible food service packaging. With a legacy of superior quality and product innovation that spans over six decades, Bagcraft is the consultant of choice to drive your business growth and brand differentiation with custom packaging solutions.

Learn more about our Sustainability Mission of advancing packaging solutions for a greener world at www.novolex.com/sustainability/EcoCraft

Sustainability

NOVOLEX™

A continuous journey of improvement

Novolex is a leader in sustainable paper and plastic flexible packaging with a broad portfolio of solutions focused on source reduction, energy and water conservation, and end of life product planning and management.

Some of the Novolex™ sustainability solutions we bring to our customers include: recycled content plastic and paper products, compostable plastic and paper products, renewable substrates, Novolex's Bag-2-Bag® plastic bag and film recycling program, lower impact substrates such as our EcoCraft and Dubl Life® lines of paper products, and other industry leading innovations that minimize raw materials while maximizing performance.

Dubl Shield®

Insulated Sandwich Wraps®

Performance Features

- High-performance wrap for a wide range of demanding applications
- Triangle shaped design creates insulating air pockets keeping food hot and fresh longer than standard wraps
- Excellent moisture and grease resistance
- Superior heat retention keeps food hot longer than standard one and two ply paper wraps
- Innovative functionality keeps different varieties of bread moist or crisp depending on which side of the wrap contacts the food
- Upgrade the sustainability of your packaging with the combined benefits of EcoCraft®

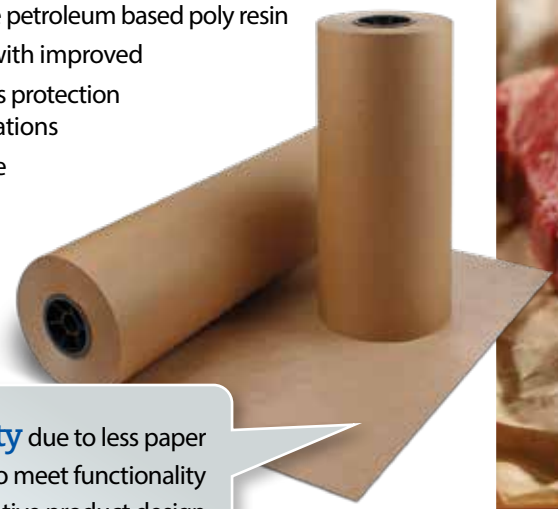
Freezer Paper

EcoCraft® Freezer Paper

Performance Features

- Less reliance on non-renewable petroleum based poly resin
- Soft and pliable freezer sheet with improved
- Offers an average of 3-6 months protection feel and acceptance with operations
- Improved barrier and "Moisture Vapor Transmission Rate" due to natural filler in poly blend



Improved sustainability due to less paper and poly material needed to meet functionality requirements offering an innovative product design

Eco-Flute®

Grease Resistant Clamshell Containers

The Eco-Flute line of containers were designed for a wide variety of foods, perfect for Convenience Store, Grocery, Concession and Catering applications. The Eco-Flute technology resists grease and retains heat while articulated vents aid in balancing moisture to maintain food integrity and the correct level of crispness. The middle layer uses 100% recycled post-consumer content providing a sturdy, lightweight package while being better for the environment. An optional window allows the contents to be displayed and checked without requiring the container to be opened.

EcoCraft® & EcoBrite™

Two great options to meet your clamshell needs!

The EcoCraft® line provides a natural look while the EcoBrite™ line provides white contrast to showcase your range of foods and applications.

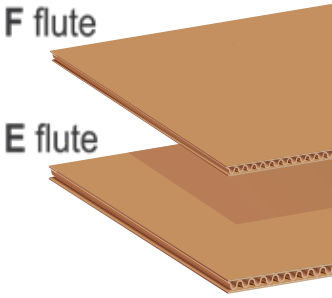
The Advantages of Eco-Flute Three Layers

Performance Features:



- Sturdy - superior rigidity and crush strength
- Insulated – corrugate layer helps to keep hot food hot and cold food cold
- Food Integrity - lightweight F and E flute material allows for moisture vapor transmission and resists grease to keep foods fresh and crisp
- Steam Release – multiple articulated vents on sides and/or back allows customers to select the right level of venting for each food item, prevents soggy take out
- Visibility - window options are great for "grab n go" foods and order accuracy identification
- Ease of Use – simple to load with secure locking lids
- The medium material of Eco-Flute is 100% post-consumer recycle content (PCR), making the total package a minimum of 33% PCR

Custom Converting & Printing Capabilities

Bagcraft® Packaging offers the broadest range of specialty bag, sheet and roll converting capabilities in the flexible food service packaging industry. We manufacture high-quality custom packages on 148 different production lines to provide a wide variety of custom package and print designs. With our efficient, superior F&K presses, we can deliver state-of-the-art graphics capabilities that help differentiate your products on the shelf and on the go. Our long-term commitment to innovation and practical solutions enables us to expertly consult with you on packaging design, process graphics and rigid packaging replacements.

Please review the information we need before you request a quote for a custom product

Provide the individual bag, sheet or roll size

- Bag (width, gusset, length)
- Sheet (width and length)
- Roll (roll width and length or outer diameter)

Initial order quantity needed and the annual volume (units or cases)

Name of printed design or logo

Basis weight of paper if known

Type of paper or combination of materials (foil, bio-film or glassine)

Need a film window?

- Provide an explanation of the proposed window die or panel location on the package

Number of printed colors (provide PMS numbers)

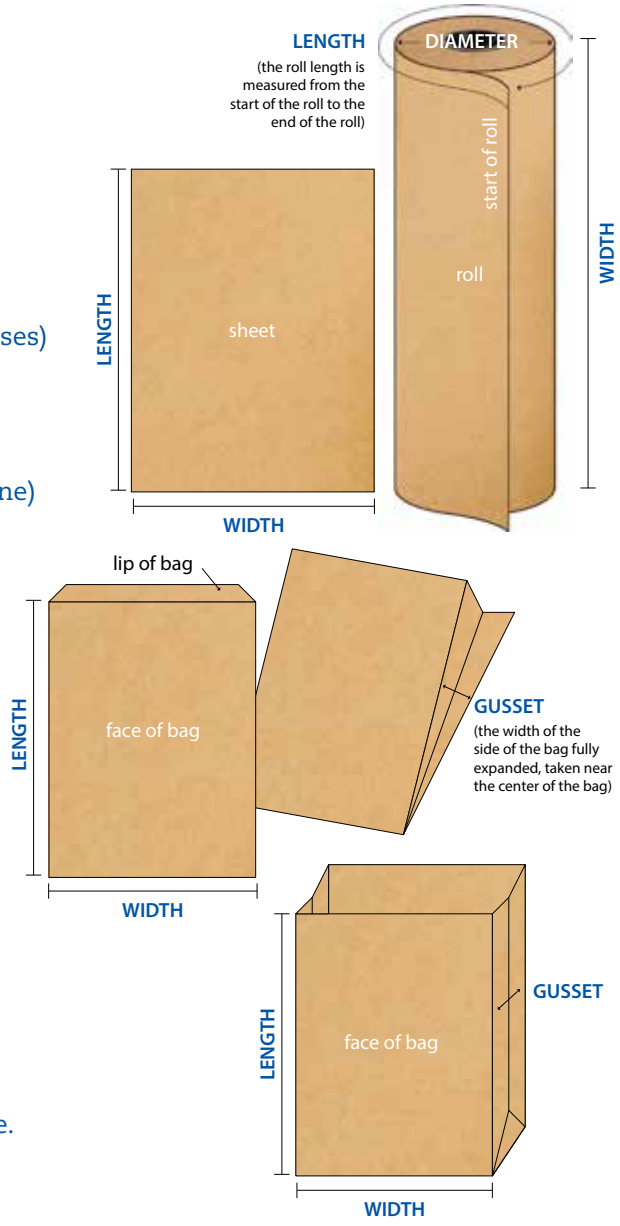
Product application (what will the package be used for?)

Case pack sizes

Shipping/distribution information

How to measure a bag for quotes and production:

- Measure the face of the bag (width)
- Measure the gusset of the bag (side width)
- Measure the length of the bag (not including lip)



If you have a specific question about our custom or graphics capabilities, contact your Novolex™ Sales Representative.

ToGo! Plastic Wave Top Carryout Bags

PERFORMANCE FEATURES

- Wide opening for easy loading
- Front side free (folded front) for easy opening
- Flat bottom gusset keeps items secure and allows bag to stand on its own
- HDPE body with Integrated 2 ¾" handles for ease in carrying
- Variety of sizes and footprints available for all of your food service needs
- 100% Recyclable

Packaging Materials Defined

Tissue

Dry Wax

Dubl Wax

Grease Resistant

Barrier Wax

Tissue
An untreated, lightweight tissue sheet with wet strength used for wrapping hot dogs, cones and foods with low moisture or grease content. Improve the "ease of eating" qualities of burgers by wrapping half the burger in our tissue wrap, then wrap the whole burger in a grease resistant, barrier wax, I-Rap®, insulated paper or foil insulated wrap for superior functionality and food presentation.

Dry Wax
Wax is driven into the paper fibers to produce a material that improves wet strength and moisture resistance. The paper provides good moisture resistance and moderate grease resistance. Our dry wax material is an affordable option for basic deli food wrap or bag applications.

Dubl Wax
We use two different technologies to create Dubl Wax paper. Our bags are coated on one side with heavy wax and on the other side with dry wax, which provides a strong moisture and moderate oxygen barrier to keep baked goods fresh longer. Our Dubl Wax deli papers are aggressively infused with wax to provide a smooth uniform high-performance moisture barrier.

Grease Resistant
A grease resistant coating is applied to this paper to decrease grease penetration and staining. The paper creates a whiter, more opaque printing surface for custom logos or designs compared to dry wax. The paper is very breathable, which keeps wrapped or bagged sandwiches fresher and less soggy by letting steam and moisture escape. This material offers an affordable and functional solution for a variety of food-wrap and single serve bag applications.

Barrier Wax:
This paper is coated on one side with a barrier wax blend. The material resists moisture and grease and extends holding times making it a favorite wrap among national quick service restaurant chains.

I-Rap®
A two-layer insulated paper wrap that combines a layer of grease resistant paper and a layer of absorbent paper bonded together with a honeycomb adhesive design to create air pockets, which provide improved insulation, heat retention and longer holding times. I-Rap provides heat retention for hot food applications without a wax, foil or poly barrier. The two-ply paper wrap is commercially compostable. Our I-Rap insulated paper allows moisture and steam to escape naturally, which keeps breads from getting soggy.

Dubl Shield®
Our innovative insulated Dubl-Shield® wrap has a highly functional grease and moisture barrier, but will allow moisture to escape, which keeps your bread or bun from getting soggy and loosing freshness. The wrap has superior graphic printability on the flat grease resistant outer layer. Improved sustainable design offers an alternative to foil and poly insulated wraps. Dubl Shield® can be printed on the grease resistant layer with one to four colors and can be produced with tinted adhesive to showcase a message or graphics on the inside of the wrap. Our proprietary triangle design air pockets help keep food hot during the average seven minute holding time, before consumption.

Clear Polypropylene:
A clear plastic sheet with superior barrier properties for displaying cold sandwiches and other chilled foods in the deli merchandising case. The material extends the shelf life of displayed food with an oxygen and moisture barrier. Our clear polypro wraps improve the visibility, upscale image and impulse sales of your deli products.

Insulated Three Ply
A three-ply material, consisting of a very thin layer of poly sandwiched between two layers of paper, with excellent heat retention, grease resistance and moisture-absorption properties. The material is safe for the microwave providing a practical, re-heatable substitute for foil insulated wraps. This multi-purpose wrap combines superior performance with a professional-grade look and feel to reinforce a quality image with customers.

Foil Insulated
Made of foil and paper laminated together to form a multi-functional material for a wide variety of food service applications. We laminate the two layers together with a honeycomb-shaped adhesive design. This design creates insulating air pockets between the layers, which improve heat retention and increase holding times. Honeycomb foil insulated wraps and bags provide the best overall heat retention, moisture/grease resistance, holding times, dead-fold and product appearance. Bagcraft® Packaging was the first company to manufacture this foil insulated wrap with the honeycomb design, and we continue to be the industry leader in flexible sandwich packaging innovation.

Sustainability Partnerships

Novolex™ is committed to the protection of the earth through recycling and promotion of sustainable products. We are proud to hold certificates for the following organizations:

Forest Stewardship Council®

The FSC promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. The unique role of the FSC is to bring together people, organizations and businesses to develop consensus-based solutions that promote responsible stewardship of the world's forests. Novolex™ uses the FSC Trademark License FSC C010800 for certified chain of custody products made at all Duro Bag, Bagcraft®, Deluxe and Burrows Packaging plants.

Rainforest Alliance®

NC-COC-003922

The Rainforest Alliance® is an international nonprofit conservation organization that certifies forestry and agricultural operations, ensuring that they meet rigorous standards for the conservation of natural resources and the rights and welfare of workers and local communities. Working with the Rainforest Alliance®, FSC certification with NEPCon is recognized by the Rainforest Alliance for its Duro Bag, Bagcraft, Deluxe and Burrows Packaging lines of 100% post-consumer recycled bags. The FSC certified paper used for the manufacturing of these products can be tracked through the supply chain including collection from the end user, sorting, paper making, transport, bag making and shipment of the finished product.

Sustainable Forestry Initiative

SFI-01567

SFI Inc. promotes sustainable forest management in North America and supporting responsible procurement globally. SFI Inc. directs all elements of the SFI program including the SFI forest management, fiber sourcing, and chain-of-custody standards, labeling and marketing. SFI certified products provide assurance that the paper used in these products represent a sound environmental choice with raw materials from certified forest content or certified sourcing.

Novolex products produced at Duro Bag, Bagcraft, Deluxe and Burrows Packaging are eligible for SFI Certified Sourcing or SFI Chain of Custody logo use. Novolex uses SFI Trademark License Code 01567.

How2Recycle

Novolex is proud to support organizations like the Sustainable Packaging Coalition (SPC) that promote industry wide sustainability initiatives such as How2Recycle the next generation of standardized recycling symbols.
We are proud to work with our customers and the SPC to get the right markings on your products. Learn more at:
How2Recycle.info

Dubl Life 100% Recycled Paper Packaging

Dubl Life is a brand of flexible food service and carryout packaging made from 100% Recycled Paper. The Dubl Life brand drives awareness of the benefits of recycling and promotes the use of packaging solutions with post consumer material content. Learn how to incorporate the Dubl Life message into your company's branding. Contact your local Novolex sale representative at: novolex.com/contact or learn more at novolex.com/sustainability/dubllife
