

D&S
dips & spread

Brochure 11/23

Vers. Inglés USA

We are a **holding company** of **Familia Conesa S.L.** The **business** lines of our **holding** company range from **cultivation** (fruit and vegetables), **fresh marketing and processing** in our **modern canning factory** located in the **south of Alicante.**

A year and a half ago we started the **Dips and Spreads** project. Not only did we want to develop new **healthy, tasty, low-calorie dips**, etc., we wanted to **revolutionise** the **dips market** in every aspect. With our **new range** and the **different packaging** we have created, we have **revolutionised** the **market not only** in **flavours**, but also in **new packaging** that is **unique** and **expands** the **sectors** where we **can sell.**

Flavours

D&S has revolutionised the world of dips and we manufacture the widest range on the market, all with vegetables classified as superfoods: artichoke, edamame, broccoli, pea, carrot.

Edamame Dip

¿ Why our products are unique?

- All our **products** are **refrigerated**.
- **Shelf life 6 months**.
- **Can be frozen for one year**.
- All our products are **made with olive oil**.
- **Made with natural vegetables, not dehydrated**.

¿ Why we have excellent quality?

- **Made in Spain.**
- We **only use top quality** ingredients, the **best: vegetables** from the **Mediterranean**, **Spanish olive oils**, **spices** from **India**, **citrus** products **from the Spanish Levante** region, etc.
- The **quality** of a **dip depends** on **choosing** the **best vegetables** and **ingredients** for its manufacture. Our dips are **made** with **natural, non dehydrated vegetables**.
- We are **located** in the **southeast** of **Spain**, **epicentre** of the **production** of the **best vegetables** in **Europe**, we have the **best raw materials** **only a few minutes** away from our **factory**.

¿ Why our prices are so competitive?

- **Our company grows, processes and sells its products without intermediaries.**
- **We are located in southeastern Spain, the largest vegetable production centre in Europe.**
- **Our modern factory and production lines are highly efficient in all our manufacturing processes.**
- **Our R&D department works daily to improve our manufacturing processes.**
